 - **MOQ :**
 - Width 177cm : 2 500 lm
 - Width 267cm : 3 500 lm

| New color range – SOLTIS

FAQ

- **What is the difference between the current 2053-Black and the NEW Black (noir profond)?**
 - SF received many requests from customers to develop a new « real » black color,
 - SF decided to remove the 2053-Black from the future collection as the difference with the new Black (noir profond) is not so important,
 - New black color (noir profond) will match with RAL 9005, one of the most popular RAL for façade and aluminium,
 - New black color (noir profond) will allow to reach one of the lowest external gtot in the market !
